

### Why this session ?

The new technologies in information have been particularly well used by young adults.

Their capacity of adapting themselves allows them to acquire the means to establish their position in the present world.

- *How can they perceive the consequences that will thus carry them throughout their experience of relationship ?*

- *How must they build further on these means to encounter God and to talk about Him ?*

- *How can all the opportunities that these resources offer be used in education and evangelization ?*

So many questions which this session hopes to answer.

### For whom this session ?

This session is for all those working in the pastoral with young adults : educators, animators, and all sorts of chaplains.

Is there an Ignatian way to respond to these challenges ?

**Help us to answer !**

**Don not hesitate ! Apply now !**
